- 8 Braille Formats Technical Committee Lynnette Taylor

Report and Board Charges

Report on file. Sue Reilly read the report submitted by the Braille Formats Technical Committee in the absence of the board packets. The Board appreciates the comments from the Formats Committee, the communication between the board and the committee seems to be working. Debbie Gillespie clarified that Rules 3 and 4 are still being worked on by the committee.

Eileen Curran raised the issue of the use of the word 'transcriber' as an all-inclusive term. Concern was expressed that everyone involved in the production of braille should be included. Braille Formats is intended for a wider audience than

just transcribers. Suggestion: ‘Braille Producers’ might be a more overall term. Could also possibly define ‘brailist’ as all those involved in the process of braille production. Suggestion: List all terms for those involved in the production process in Braille Formats.

The BANA Board went through the report point by point.

In response to question regarding capitalization the Board recommends: Follow print for capitalization throughout including title pages. The Formats Committee concurred with this recommendation.

GC The Board agrees with this decision.

Mary Lou Stark will forward NLS information regarding jacket material and how to determine if it is advertising or not for purposes of Free Matter to the Braille Formats Committee.

The Board needs clarification to understand “conventional human language”. The Board recommends change in terminology to clarify this item.

Interpoint braille: The Board recommends cross-referencing “page numbering” in Rule 1 and the interpoint section yet to be written.

Word division: Clarify the concept that the need for the option for dividing words between lines when necessary should be available. The board would prefer that this be an agency decision. Please consider reworking this section based on our recommendations.

Foreign Language: Considerable discussion took place on whether to contract or not contract. Debbie Gillespie and Jill Cooter commented from the observers. Concern was expressed about contractions that bridge prefix-base, base-suffix and compound words. Some attendees thought that contractions should be used throughout the material.

GC Thanks to the Formats Committee for working on the Foreign Language in English context rule.

MSC To charge the Literary Committee to draft language for use or non-use of contractions in foreign words within English context, taking into consideration the recommendation of the Braille Formats Committee and consulting with the BANA Foreign Language Technical Committee. Passed unanimously. (Secretary’s note: this motion is repeated in the Literary Braille Technical Committee report section.)

Discussion: The Board expressed concern that there be consistency in language

between literary braille, Braille Formats, and foreign language braille. The Board is also concerned that there be consistency between use and none use of contractions regardless of type face.

The Board recessed for lunch at 12 noon.

The Board resumed the meeting at 12:50 PM

Joe Sullivan joined the meeting as an observer.

The Board was asked for more clarification on #10 from the Annual Meeting Minutes from November, 2003, which stated: More clarification is needed on educational instructional materials.

Budget request: A face-to-face meeting later this summer was requested. Estimated cost: \$500 per person for airfare; \$300 per person for hotel space. \$5600 total if Anne Kelt as consultant to the committee is included. Discussion: Ordinarily we do not pay the expenses of a consultant to a technical committee. Kim Charlson will check to see if Perkins could host the meeting again. Also we need to know if funds are available. The Board will decide on-line after this meeting.
