Email Motion 2009 – #13, MSC:

Date Closed: October 11, 2009

On September 28, 2009, a motion was made by Kim Charlson and seconded by FM D'Andrea that Susan Christensen and Sandy Smith be reappointed to the Braille Formats Technical Committee for a two year term ending in 2011. The deadline for this vote was originally Monday, October 5, at 9 pm Eastern time, but because the BANA Board listserv was out of order during that timeframe, Chair Judy Dixon extended the voting period

to 6:00 P.M. on October 11. The motion passed with 11 members voting yes and one member (Sue Reilly) not voting.

Sue reported that the document that was provided by the committee included only the changes instead of the complete document. The Board confirmed that the technical committee is responsible for providing the complete document that will be distributed for review.

Judy expressed concern about production issues surrounding the creation of accessible versions of the very large Formats document. The Board discussed the process committees use to prepare review documents and to design the review process. Pete Osborne suggested that the UKAAF policy might offer a model. In their process, UKAAF provides background information on the document to be reviewed as well as the scale and scope of the review. Individuals apply to review the document. From this pool of respondents, UKAAF chooses a review panel.

GC: It was decided that potential reviewers would be surveyed regarding their interest in receiving hardcopy (either print or braille) versions of the document for review. Jennifer and Sue drafted a questionnaire to be used for this purpose for the formats and foreign-language review. The Research Committee will assist each committee with developing their review strategy.

GC: The Board agreed to the following dispensation of the charges to the Formats Committee:

Charge #6 (5/1/1998) To develop a basic format guideline in conjunction with Literary Braille Technical Committee within one year after publication of Braille Formats, estimated to be in the fall of 1999.

Disposition: Changed from Done to Waiting

Charge #30 (5/1/2001) Work with the literary technical committee to come to agreement on the 40 points of difference.

Disposition: Approved as Done

Charge #77 (5/11/2003) that the BANA Board authorize the Braille Formats Technical Committee to undertake a major revision of Braille Formats Principles of Print to Braille Transcription 1997. As Braille Formats is reviewed, any changes to rules not authorized previously by the BANA Board will be submitted to the board by the Braille Formats Technical Committee so that a charge can be issued by the BANA Board to the Technical Committee regarding the proposed changes

Disposition: Accepted as Ongoing

Charge #87 (11/14/2003) When rules or guidelines are being changed, a rationale for that change should be provided in the report to the board.

Disposition: Approved to Discard

Charge #114 (4/17/2005) When preparing copies of rule changes with examples to be submitted to BANA for approval in collaboration with Publications Committee, the committee's rationale for changes should be included in accompanying document.

Disposition: Changed from Done to Ongoing

Charge #117 (4/17/2005) to clarify How to Handle Spread Sheets with Column Headings

Disposition: Changed from Waiting to Ongoing

Charge #128 (11/3/2005) That the final draft of the spreadsheets rule be prepared for the technical committee review process, including the exact reference of where it will be inserted, and in context, using specific language and numbering.

Disposition: Changed from Waiting to Ongoing

Charge #171 (5/15/08) to prepare guidelines for the production and formatting of menus.

Disposition: Changed from Waiting to Ongoing

Charge #172 (5/15/08) work with the CBC committee to create guidelines for the transcription of screen shots, web pages, and other displays captured from electronic media.

Disposition: Accepted as TBA

Charge #178 (11/09/08) to include wording in Braille Formats referring transcribers to the Computer Braille Code for direction on how to handle the format of the special symbols page whenever computer code is used in a volume.

Disposition: Removed as this was accepted at Fall 2009 meeting

Charge #186 (3/15/09) Work collaboratively with the Literary Technical Committee on the creation of the appendix that will list any symbols currently in Braille Formats that are not in EBAE and to add other selected symbols from Nemeth code for science and mathematics

Diane Wormsley, Board Liaison to the committee, read the report, which is on file.

Diane reported that the committee makeup no longer includes a member who is a braille reader. Diane will work with Committee Chair Betsy Burnham to identify and recommend new members to be added to the committee as soon as possible.

- 11 Ad Hoc Foreign Language Committee Ann Kelt**
In the absence of Eileen Curran, Board Liaison to the committee, Kim Charlson read the report, which is on file.

- 14 Literary Braille Technical CommitteeMartha Pamperin**
Darleen Bogart, Board Liaison to the committee, read the report, which is on file.

GC: The Board agreed with the committee’s dispensation of their charges.

The board engaged in a lengthy discussion focused on the ways we create symbols and considered the complexities involved. At issue is the pressing need for additional symbols to ensure the future of braille and a code that can accurately express the original text, but still be flexible enough to reflect the creative ways in which print symbols are now occurring. The committee chair and several committee members believe that it is critical that we establish clear and consistent symbol creation guidelines, assuring that new symbols can "result in clear and unambiguous braille, braille that can cope with whatever surprises our rapidly growing and changing language offers." Pete Osborne suggested that symbol creation would be an appropriate topic for the executive committee meeting of the International Council on English Braille (ICEB).

As a result of this dialogue, a conference call with Dr. Cay Holbrook of the University of British Columbia was arranged for Saturday to discuss the findings of Canadian research on Unified English Braille (UEB).

MSC: Darleen Bogart made a motion that the Board approve the order of the rules for EBAE from 1 – 17 and the Appendices A – E as outlined in the committee report. The motion was seconded and passed.

The committee report contained a resignation letter from Jean Simpson. Committee Chair Dorothy Worthington will propose a new committee member, which the Board will consider via email vote.

- 14 Music Braille Technical Committee Lawrence Smith**
Jennifer Dunnam, Board Liaison to the committee, read the report, which is on file.

Jennifer told the Board that she had recently received files for the music braille codebook from Sam Flores in Word format. The files provide the committee with an editable version of the document that will greatly facilitate their work on the revision. They can also be put into PDF for the BANA web site. Presently, the PDF file of the music braille codebook that is on the web site was made by a volunteer who scanned the book and created the PDF from the images. A PDF from the Flores files will greatly reduce the file size and could potentially be more accessible with screen readers. Jennifer will send the files to Judy who will work with the NLS Music Section and Sandy Smith to get them put into a usable PDF format.

- 15 Refreshable Braille Technical Committee Caryn Navy**
Judy Dixon, Board Liaison to the committee, read the report, which is on file.

GC: The Board agreed that Charge #188 is complete and should be removed from the committee's charges.

Charge #188 (3/15/2009) Provide a response to the following:

At its spring 2009 meeting, the BANA board held a discussion about the work of the Refreshable Braille Committee, specifically the future of the linear braille format code. It was determined that before moving forward with this issue, questions should be put to the committee that we may better understand all of the factors relating to decisions about the need for a revision of Linear Braille Format Provisional Guidelines (LBF). So that the BANA Board and the Refreshable Braille Committee can ensure a common understanding, please

include answers to the following questions as part of the fall 2009 report of the Refreshable Braille Committee.

1. Please provide an explanation of how LBF is currently used. By whom? On which devices? For what kind of material?
2. Does there remain value in maintaining a distinct code for linear braille code? If so, please define the value.
3. Given the likely future scenario regarding the evolving use of refreshable displays with braille-in-DAISY and other formats and platforms, what do you envision will be the role of a revised LBF? Do you envision that distinct versions of digital files such as books would be created by braille producers for the purpose of incorporating the code?

Disposition: Approved by Board as done.

MSC: Diane Wormsley made a motion that the Board charge the Refreshable Braille Committee with working together with the Daisy Consortium to ensure that linear representation in braille is possible in Daisy Format. The motion was seconded and passed.

- 16 Tactile Graphics Technical Committee..... Lucia Hasty**
Mary Nelle McLennan, Board Liaison to the committee, read the report, which is on file.

Mary Nelle reported that the Joint CBA/BANA Tactile Graphics Committee held a final face-to-face meeting in December. At that meeting, the committee decided to eliminate a large number of hardcopy tactile graphics examples and to replace them with jpg files. Even with this significant change, the Board held firm to the August deadline for the completion of the guidelines document.

MSC: Mary Nelle McLennan made a motion that the Board approve the request that NBA and CNIB be permitted to use the Tactile Graphics materials developed by the committee to do an in-depth workshop on Tactile Graphics at their conferences in 2010 with the caveat that DRAFT be included on all of the materials and the presenters be knowledgeable about the materials. The motion was seconded and passed.

GC: The Board agreed to change the disposition of Charge #127 from Done to Ongoing.
