Unified English Braille Manual, 2011

New Zealand Edition

**Adapted from the Unified English Braille Primer
Australian Edition 2007 Edited by Josie Howse**

**Produced by the Royal New Zealand Foundation of the

FOREWORD

I am pleased to introduce the Unified English Braille Manual: New Zealand Edition. Unified English Braille represents a great deal of work over many years by dedicated experts around the world to develop Unified English Braille and transform the theoretical code into every-day use.

On 2 April 2004 Unified English Braille was agreed by the International Council on English Braille as sufficiently complete for consideration by member countries for adoption as their national braille code. On 14 May 2005 the New Zealand Braille Authority adopted Unified English Braille as New Zealand's braille code with full implementation envisaged over the following five years.

The manual is an adapted version of the Unified English Braille Primer: Australian Edition which was based on the Braille Primer Revised Edition 2005 published by the Royal National Institute of the Blind in the United Kingdom. Their significant contribution is acknowledged, and that of the Australian Braille Authority for allowing the adaptation of the Primer for use in New Zealand. The outstanding contribution and support of Josie Howse who prepared the text of the Australian Primer is especially acknowledged.

This edition of the Manual is a revision of the 2009 version. My thanks to all those who contributed to its development.

Maria Stevens
Chairperson, New Zealand Braille Authority

Introductory Remarks

Braille

Braille is a system of embossed signs which are formed by using combinations of six dots, arranged and numbered thus:

1 ● ● 4
2 ● ● 5
3 ● ● 6

The signs are embossed on special paper, either by hand with a tool called a stylus which is pressed into the paper through holes in a perforated frame, or by using a braille writing machine, such as a Perkins Brailier, or by an embosser connected to a computer.

A simple sign, e.g. a sign denoting a letter, occupies one space or "cell". A blank space is left between words, and between the end of one sentence and the beginning of the next.

In this manual the dots in the cell will be indicated thus: 1 2 3 and 4 5 6, to denote the left and right hand of the cell respectively.

The duty of a transcriber is to convey to the reader as exact a representation of the printed copy to be transcribed as is possible or feasible.

Learning Braille

Learners are urged to work through each lesson in this manual in the order given, and to perfect themselves in each lesson before proceeding to the next. It is most important that each example given should actually be written several times for practice.

Only the words found in the lessons should be written; on no account whatever should beginners try to write any words other than those included. A large number of words are contracted or abbreviated in braille in order to save space, and if these are not written correctly from the start, certain principles could be misunderstood and would be difficult to unlearn later.

The best and quickest way to learn to write is by constant practice, and by a firm resolve to send only faultless work to the instructor.

Drills and Practices

When transcribing the first 22 exercises start a new braille line for each print line shown. Each line of braille may use up to 40 cells. The heading, for example Drill 1 or Practice 4, should be centred on line 1. Transcription should begin in the first cell of line 3. The braille page number should be put in the last cells of line 25.

Answers to Drills are given in Appendix D. The Practices should be given to your instructor for checking.

Definitions

1. Simple sign – a sign occupying one cell only.
2. Composite sign – a sign occupying two or more cells.
3. Upper sign – a sign containing dot 1, or dot 4, or both.
4. Lower sign – a sign containing neither dot 1 nor dot 4.
5. Contraction – a sign which represents a word or a group of letters.
6. Groupsign – a contraction which represents a group of letters.
7. Wordsign – a contraction which represents a whole word.
8. Shortform – a contraction consisting of a word specially abbreviated in braille.

Arrows on Paper Feed Knobs indicate direction for turning to locked position and for rolling paper out.

GENERAL INSTRUCTIONS

Inserting paper

(Braille paper measures 29x28 cms)

Raise the paper releases on top of the braille towards you.

Wind the paper feed knobs (the two grey knobs at each side of the braille machine) away from you as far as they will go.

Slide the paper with the 29cm edge towards you under the carriage, lower the paper releases and wind the paper feed knobs towards you as far as the paper will go.

Press the line spacer once.

Braille margins and line length

The Perkins braille has a 42 cell per line capability, but within the manual only 40 cells are used.

Margins should be set so that it is not possible to braille in the first cell on the left or in the last cell on the right. A good way to set the margins is to insert paper into the machine, push the margin release tabs (located at the rear of the braille) open as far as possible, and by pushing all six keys at the same time, braille a line of full cells. There should be 42. This allows the cells to be seen and the margin tabs set in the appropriate places. Alternatively, move the carriage to the left, tap one space and adjust the left margin. On the right move the carriage as far as it will go. Move one space to the left, using the spacing key, back space to the left and adjust the right margin.

Centred headings

The first line of the first page should carry a centred heading. To do this, first count the number of cells that the heading will occupy. Subtract that from 40 (the number of cells per line). Divide your answer in half and this will indicate how many blank cells should precede the heading. When the heading has an uneven number of cells, move the heading off centre by one cell to the left.

Remember to count contractions, spaces, and indicators such as capitals. A blank line should follow the centred heading only on the first page of each exercise. (Push the line spacer down 2X to make a blank line.) All other pages should have the running head on the first line and the exercise continuing on the second line.

Page numbering

Print page numbers (if required) are brailled at the end of the first line on each page i.e. the line with the title or running head.

Braille page numbers are brailled at the end of the last line on each page, i.e. on line 25. E.g., if the page number is 5, the number mode indicator is brailled in cell 39 and 5 in cell 40.

Erasures

Erasures should be avoided. However, the best erasures can be made by moving the carriage to the mistake and carefully pressing the eraser directly down on the metal plate. If the paper has been removed a good erasure can be made on a hard surface e.g. the kitchen bench. It is a fiddle to get the paper back into the right place. It can be done by aligning the cells vertically, then moving the carriage along the line to the space to make the correction.

Take care to get the dots aligned accurately, horizontally, within the word. The roller must be unlocked.

Because even good erasures are often detectable and confusing to the braille reader, an erasure should not be made if it would result in a blank cell. Try not to erase more than one dot in a cell. Do not erase at the end of a line or in a page number.

Proofreading

Careful proofreading is the key to becoming a successful brailist. As an exercise is being done, proofread each line while the paper is still in the brailer. Then the whole exercise should be proofread again when it is complete. Leaving your work for a day or two before re-proofing is a good idea.

Sign off

Braille your name on the last page at the end of each exercise. (Write your name in pencil on every braille page.)

Advice To Beginners

As part of learning braille you should practice reading it. Eleven Reading Practices are included in Appendix A.

Important Points

Form the habit of always using the space bar immediately after a word or its punctuation.

Two Essentials : **Strong** dots, that can be felt by the blind reader, and **accurate** dots, with no erasures.

Remember when writing braille to use the space bar after each word. If you think of the space as an extension of the word, you will avoid inadvertently joining words meant to be kept separate.

The Print Copy: Keep your eyes on the print and not on your fingers; place the copy in the best position for you to read it without strain, in front at eye level, if possible. Mark the line you are copying with a strip of paper or in any way most suitable. This will ensure you do not miss a line or lose your place.

To Sum Up

Follow the advice given to you in all respects. First learn the new signs with the numbers of their dots which are given in the lesson and try to visualise them. If helpful, make them in ink first so as to memorise the relative position of the dots. Actually braille all the signs and examples given, until you can do so from memory.

Then practise braille the lines of the exercise until you can do so slowly, smoothly and correctly. Finally try to make a fair copy of the whole exercise, and then read it over carefully, word by word with the copy, before sending it in to your instructor; if it is not correct, rewrite if necessary. This sounds laborious, but it saves time and trouble later on. Ease and accuracy will come if you start in this way.

When posting hard copy braille, ensure that it is well protected so that the dots are not flattened.

LESSONS 1-4
Letters of the Alphabet

LESSON 1
a to j

a	b	c	d	e	f	g	h	i	j
⠁	⠃	⠉	⠙	⠑	⠋	⠗	⠈	⠊	⠚

a	dot 1	f	dots 1 2 4
b	dots 1 2	g	dots 1 2 4 5
c	dots 1 4	h	dots 1 2 5
d	dots 1 4 5	i	dots 2 4
e	dots 1 5	j	dots 2 4 5

Practise writing these signs, leaving two spaces between each; and when you can write them correctly, practise reading them from your page as well.

Numbers 1-9 and 0 are represented in braille by the letters a to i and j respectively, when they are immediately preceded by the numeric mode indicator ⠼ (dots 3 4 5 6) (see also Lesson 24):

1	2	3	4	5	6	7	8	9	0
⠼⠁	⠼⠃	⠼⠉	⠼⠙	⠼⠑	⠼⠋	⠼⠗	⠼⠈	⠼⠊	⠼⠚

Punctuation

A full stop or other punctuation follows immediately after a word, and one space (and one only) must be left between the full stop and the beginning of the next sentence.

Full Stop

This is a lower **d**, i.e. a **d** on the lower dots of the cell.

⠠ dots 2 5 6

Capital sign

An initial capital letter is indicated by placing the capital sign,

⠠ (dot 6) immediately before the letter affected. If the whole word is in capitals, see Lesson 25.

Example:

I beg a cab. He hid a badge.

⠠⠠⠠ ⠠⠠⠠⠠ ⠠ ⠠⠠⠠⠠⠠⠠ ⠠⠠⠠⠠ ⠠⠠⠠⠠ ⠠ ⠠⠠⠠⠠⠠⠠⠠

Drill 1

Centre Drill 1 on the first line. Leave a blank line and start the drill in cell 1 of line 3.

Transcribe the following drill, leaving one space between each word, or, if there is a full stop after a word, then between the full stop and the next word. A dot 6 should be used in front of each capital letter.

abide acid adage bad beef bide cadge
cage decide deface die egg fade fife
fig gab gibe hide idea ice jade jag.
I hid a badge. I add. I beg Dad dig.
A big gaff. I bid Dad hide. Bad ice.
I deface a big badge. He did decide.
He hid a bad face. He did beg a cab.
I decide. He did a jig. He did hide.
If a fag did cadge beef. A bad idea.
4 7 13 9 25 8 167 4 52 10

When the practice is completed, read every line again and check it against the print copy. Do not submit it for correction until after careful scrutiny when you are satisfied it contains no mistakes.

Practice 1

acid acacia beige bid cicada cab
deface dice egad ebb fee fief gibe
gaff hie hag ice idea jibe jig jag
fade egg Ida ace bid face age bee.
He hid. Ada did cadge big beef. Big

a hag. I hide ice. I add. I hide a
bad face. A bad adage. He bade Ida
abide. Cadge a fig. I deface a jade
cab. Add a decade. Dad did hide a
bag. A beige badge. I bid Ada
decide. Cage a cicada.

LESSON 3

u v x y z and w

u, v, x, y and z are formed by adding dot 6 to the letters k to o:

k	l	m	n	o
⠅	⠇	⠍	⠏	⠕

u	v	x	y	z
⠥	⠦	⠭	⠮	⠵

w ⠵ is out of place because braille is of French origin, and there is no letter w in French.

u	dots 1 3 6	x	dots 1 3 4 6
v	dots 1 2 3 6	y	dots 1 3 4 5 6
w	dots 2 4 5 6	z	dots 1 3 5 6

Drill 3

wait wake walk walls wants wave ways
weeps well wits wide wild wise wives
woman wood wool worry wrap write wet
yawn yes yet yield yoke zigzag razor
lovely valley lazy pretty ugly yells
widely loosely poorly fairly wisely.
I may visit my nephew on my way home
if I return soon. He walks two miles
or a mile, if he is lazy. Uncle gave
me a safety razor. I want two velvet
dresses. William has a lovely bronze
vase. We saw a weird play a week ago
at Drury Lane. I made a Victory sign
on my return. I dote on a wide view.

Practice 3

Tom executes quixotic exploits. A
robot has brass knuckles. Janet uses
dull adjectives yet has a wry wit.
Quizzes puzzle me. Icicles drip, a
brook murmurs, fireflies flit.
Philip buys an attractive grey tie.
Julia rides a fidgety black filly.
Paul plays jazz tunes, yet at
Yuletide he plays jubilant
hallelujahs. Kate bridles a beige
pony. Olivia picks a pretty rosebud.
Luke prays daily. An orange poodle
is a weird spectacle. Patricia
cracks a rude joke. James draws
vivid pictures. Lovely blue velvet
is unbelievably nice. Lucy uses six
textbooks at college. Two angry
gangs queue up. A mad man eats only
black olives or raw onions. He hugs
a gigantic gorilla, he builds a
wigwam, he hums a lovely lullaby,
yet he has wise philosophy.

LESSON 4

Letters as Simple Upper Wordsigns

The following table shows how the letters of the alphabet are used in braille to represent whole words when they are standing alone; usually it is the first letter that is taken.

b	but	h	have	p	people	v	very
c	can	j	just	q	quite	w	will
d	do	k	knowledge	r	rather	x	it
e	every	l	like	s	so	y	you
f	from	m	more	t	that	z	as
g	go	n	not	u	us		

Single letters used in this way to represent words are called **simple upper wordsigns**; **simple** because they take up one cell, **upper** because they have a dot in the top of the cell, and **wordsigns** because they represent words. They may only be used as abbreviations for the word if they represent the exact word, i.e. when no other letters are added to them.

(You will later meet the contraction for the word "its" which is represented by the letters xs; you will find this in Lesson 16 and should not be concerned with this when you are learning this lesson.)

NOTE: Where sequences of letters or whole words are to be expressed by a single braille sign, they are printed – in the examples in this book – enclosed in parentheses, so as to distinguish them from the letters or words that must be written in full.

Examples:

I (like)	⠠⠠⠠⠠⠠	He likes	⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠
(but) me	⠠⠠⠠⠠⠠⠠	No buts	⠠⠠⠠⠠⠠⠠⠠⠠⠠

(You) (will) (just) (do) (that). ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

(So) (that) I (can) (go). ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

Drill 4

I can write. I do like every pocket that will hold a lot, that is a luxury. Do go away. He will not do it yet or on impulse but only as I may see fit or as he may deem wise. It is, as you say, more like two miles from my hut. You can have as exquisite a dress as you like, I will buy it gladly so that you may put it on at will. He says he will write legibly next week, but I am rather afraid he is too lazy. People like me do not easily assume that a man can quite surely acquire knowledge on all subjects. You may see that it is very likely that battles on a broad front will take place soon. I am quite sure he will pass if he likes, but not quite as well, he told us, as he knew that John did five weeks ago. Give us a very nice pork pie. If I am very hot from a race or a game I like every juicy orange, as it makes me quite cool.

Practice 4

You may eat ravioli if you desire, but you will not like it. Every boy can play football if he tries. Do not set that empty can on my bookcase. Do not go away from home just yet. I have as big a muscle as you have. He is a just man, but not very humane. My knowledge on that subject is rather vague. People will visit us next week. He is not quite as brilliant as my uncle. So few people like that petty politician that he will surely lose. A milk can blocks every exit. If you make a will, I hope that you will not give John that cosy cottage on Willmot Road. He snubs me, but I will not do likewise, as I feel no ill will. He has wide knowledge, but he does not use it. All I can say is you will have fun if you go. That box is very ornate but quite attractive. He rather likes people, but I do not.

READ Appendix A: Reading Practice 2

In this and all subsequent exercises, continue to keep strictly to each line as set.

Drill 5

The man that lives next door took Luke and me for a ride on the bus. He spoke the phrase with emphasis. You will soon see the value of travel abroad. It helps you relax; and it gives you an idea of the way people live. John told Neil that juicy bit of gossip, but did not tell Lynn. I will live with and provide for the old man. I will give the girl I am fond of a new hat. The tree is so tall that he can just see the big limb if he is on the very top of a wide, flat rock. Talk with us and, if we can, we will help a just cause of and for the people.

Practice 5

I am fond of a cup of tea with a bun; and, with the
bun you can give me a piece of cake. Busy
as usual, I see, with the pots and pans; and if
I may add, with the spoons and knives and the new
bronzes on the mantelpiece and the walls; for
if you see a pretty bit of brass for sale
you go and buy it and hang it up for the joy that it will
give and the rapture it evokes. At home he
has boxes and baskets full of all sorts
of fruit as for example oranges and lemons
and apples and bananas and plums and figs, and
nuts of the sort that you like, as well as lots of the
lovely prunes that I got from abroad a few
weeks ago. I have a lot of worry with the dogs
and the horses; and the pigs and the goats and the cats.
He looks on all the damage from the fire with the
habitual, placid calm of a man that feels
deeply but will not let anybody else see it.

LESSONS 6-9

Simple Upper Groupsigns

Having finished the letters of the alphabet and the words they may represent (Lessons 1-4), and introduced the five special wordsigns (Lesson 5), we now pass on to groupsigns. Groupsigns are signs expressing two or more letters which form part of a word. First we shall take those groupsigns which have at least one dot on the top line of the cell i.e. dot 1 or dot 4, or both, and which occupy only one cell. They are called **simple upper groupsigns** (or one-celled upper groupsigns).

LESSON 6

and for of the with as Groupsigns

We begin with the very same five signs which we had in our last lesson as wordsigns to represent these five words. These signs are also used as groupsigns to express the same letters (without regard to their meaning) when they form part of a longer word (with the exception of some compound words, to be learned later on). And indeed we shall see in later lessons that they are "priority contractions" where there is a choice of contractions in any given word.

Examples:

b(and) ⠠⠠ (for)ce ⠠⠠⠠ (of)f ⠠⠠
 (the)m ⠠⠠ (with)draw ⠠⠠⠠⠠⠠

Other examples:

c(and)le ⠠⠠⠠⠠ gr(and) ⠠⠠⠠ (And)rew ⠠⠠⠠⠠⠠
 ab(and)on ⠠⠠⠠⠠⠠ af(for)d ⠠⠠⠠⠠ (for)m ⠠⠠
 ef(for)t ⠠⠠⠠⠠ (for)ty ⠠⠠⠠ pr(of)it ⠠⠠⠠⠠⠠
 (of)fice ⠠⠠⠠⠠⠠ c(of)fee ⠠⠠⠠⠠⠠ pro(of) ⠠⠠⠠⠠
 (the)n ⠠⠠ o(the)r ⠠⠠⠠ fur(the)r ⠠⠠⠠⠠⠠
 ca(the)dral ⠠⠠⠠⠠⠠⠠⠠ (with)hold ⠠⠠⠠⠠⠠

Practice 6

Did you buy the packet of candles? Yes, I have put them on the top of the desk at the office so that you can use them as you want them; but if you do not want them all will you hand me half of them back as they will prove handy for us at home? I like my coffee black, but other people do not! I have proof that they can ill afford the loss of forty acres of that agricultural land on the other side of the sandy track that runs off on the left of my grass land. The gateway is on the left hand side of the cathedral close; it is very grand and lofty and is forty feet or so wide! Can they deploy a big force of cavalry for the battle? They say, and others agree with them, that they can; and that the force that opposes them will withdraw, and abandon the forts. Off with you! And get me a few spoons and forks! Make an effort and get off that soft sand! Demand a big profit on that bit of land? I forbid it!

LESSON 7

Five Upper Groupsigns (with h)

(ch)	(gh)	(sh)	(th)	(wh)
⠠	⠠	⠠	⠠	⠠

These five groupsigns are formed by adding dot 6 to the signs for **a b c d e**. Thus:

(ch)	a and dot 6
(gh)	b and dot 6
(sh)	c and dot 6
(th)	d and dot 6
(wh)	e and dot 6

These signs may be used in any part of a word for the letters they represent, except for compound words, e.g. "Big**h**orn" (see Appendix F(1): Braille Reference Section).

Examples:

(ch)ap ⠠⠠⠠	hi(gh) ⠠⠠⠠	(sh)e ⠠⠠
(th)y ⠠⠠	(wh)o ⠠⠠	

Other Examples:

(ch)air ⠠⠠⠠⠠	(ch)ange ⠠⠠⠠⠠⠠	s(ch)ool ⠠⠠⠠⠠⠠

(wh)om ⠠⠠⠠	(wh)isk ⠠⠠⠠⠠	(wh)eel ⠠⠠⠠⠠

Choice of Contractions

If "th" is followed by "e", the groupsign to be used is (the), because it represents the greater number of letters, as:

(the)n ⠠⠠⠠ (the)m ⠠⠠⠠
clo(the)s ⠠⠠⠠⠠⠠⠠ o(the)r ⠠⠠⠠⠠
(the)atre ⠠⠠⠠⠠⠠⠠ ca(the)dral ⠠⠠⠠⠠⠠⠠⠠⠠

Wordsigns

(ch) (sh) (th) and (wh) are also used as wordsigns:

(ch) stands for "child"

e.g. My (child) is tall. ⠠⠠⠠⠠⠠⠠ ⠠⠠⠠⠠⠠⠠⠠⠠

(sh) stands for "shall"

e.g. I (shall) eat late. ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

(th) stands for "this"

e.g. (This) is my cup. ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

(wh) stands for "which"

e.g. (Which) is correct? ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

As we saw with the wordsigns in Lesson 4, such as "l" for "like", they may only be used to express the exact word they represent and when no other letters are added to them.

Examples:

He is (like) a (child). ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

But:

He is (ch)ildlike. ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

NOTE: We have already had "t" for "that"; now we have (th) for "this".

Punctuation

The **Apostrophe** (') is dot 3 ⠠ (the bottom **a**) and is used as in print.

Examples:

The cat's tail ⠠⠠⠠ ⠠⠠⠠⠠⠠⠠ ⠠⠠⠠⠠

Don't ⠠⠠⠠⠠⠠⠠

“cat's” and “Don't” being written as one word, as in print.

NOTE: A wordsign may be used when immediately followed by an apostrophe with the following letters:

'd 'll 're 's 't 've

Examples:

The (child)'s doll ⠠⠠⠠ ⠠⠠⠠⠠ ⠠⠠⠠⠠⠠

(that)'s ⠠⠠⠠⠠ (you)'ve ⠠⠠⠠⠠⠠

(can)'t ⠠⠠⠠⠠ (it)'ll ⠠⠠⠠⠠

For greater clarity, it has been ruled that a wordsign should not be used when it is preceded by the apostrophe.

Drill 7

Thomas's shrill shriek annoys me. The old man chases the naughty boys away from the road. Uncle Jonathan has a new shoe shop. Did Joe Whitney catch any fish? Which book does the child want? Uncle Josh keeps this whisky on the top shelf. The child's new dress is blue. This'll surely meet with my big brother's approval! I will wash the floors and polish the furniture while you play. We wait at the threshold of further space travel. He is so childish! Both of the candidates expect victory. Will you publish the essay which I wrote? That's a very bad idea! Shall I fetch lunch? It's a shame that we can't provide this child with a home.

Which child is it who is eight months old? Why, the
truth is I am not sure which of them it is. Shall I
see what fish he has caught? Thanks! And you
might ask too, what they weigh. As this shop's
not shut, I'll just go and buy a box of matches

He came from Missouri only two months ago. Our grandchild loves the out of doors. Without doubt the British make valiant allies. He derived a huge profit from the sale of the house. Our new neighbours have moved from Exeter. The gale blew all the flower pots off the front porch. The child's nosebleed excited all the grown ups. Frederick loathed the bitter northern climate: that is why he soon moved south. The seductive perfume of flowers filled the night air. "Let's see," pondered Herbert, "it's four more weeks till school is out." Any adverse criticism of America's foreign policy makes Philip angry. The town sorely needed civic progress: for example, a change of politicians. They wander over the hill. My old radio has an outside aerial.

 (ar) dots 3 4 5
 (ing) dots 3 4 6

(st) and **(ar)** may be used in any part of a word (but also see Appendix F(1): Braille Reference Section for exceptions, such as "Queenstown").

Examples: (st)(and) ⠠⠠⠠⠠ (ar)e ⠠⠠⠠

(st) by itself stands for the word "still". The same rules on its use as a wordsign apply as given in the case of (ch) for (child), (ou) for (out), etc.

(ing) may be used in any part of a word except at the beginning.

Example: r(ing)(ing) ⠠⠠⠠⠠⠠

Other Examples:

"The Tempest" is full of striking imagery. He plans on making a career of aerodynamics. Gingerale will quiet an upset stomach now and then. Her hair is slightly tinged with grey, but her eyes have the sparkle of youth. She gave Butch a withering look and exclaimed, "I wish you'd bathe every now and then!" It is amazing how few people are thoroughly free of vexing problems. Charles is a five-trip-a-week pilot. The next film is "Two-gun Jim rides on." The sedate Duchess hired a sedan-chair for her three-hour tour of Peking.

LESSONS 10-14

Lower Signs

In previous lessons, we have dealt with simple upper signs, signs which have at least one dot in the top of the cell (i.e. dot 1 or dot 4, or both). They may express letters of the alphabet or may be upper wordsigns, such as (child) or (out), or upper groupsigns, such as (er), (ed) or (ing). Now we pass to lower signs – those which have no dots in the top of the cell. So far we have used these signs only for punctuation. Now we shall introduce them as groupsigns and wordsigns. For the sake of clarity we shall continue to keep these terms distinct: groupsigns are signs that express two or more letters which form part of a word, whereas wordsigns represent whole words.

LESSONS 10-12

Lower Groupsigns

These can be grouped under three headings:

1. Those that must be written at the beginning of a word or braille line.
2. Those that must be written in the middle of a word.
3. Those that may be written in any part of a word.

LESSON 10

1. Lower Groupsigns at the Beginning of a Word or Braille Line

(be)	(con)	(dis)
⠨	⠨	⠨

(be)	dots 2 3 (lower b)
(con)	dots 2 5 (middle c)
(dis)	dots 2 5 6 (lower d)

These three may only be used when they form the first syllable of a word.

Examples:

(be)gan ⠠⠠⠠⠠ (con)c(ern) ⠠⠠⠠⠠ (dis)able ⠠⠠⠠⠠⠠
(be)ta ⠠⠠⠠ (be)(ing) ⠠⠠

But:

bell ⠠⠠⠠⠠ conk ⠠⠠⠠⠠ disc ⠠⠠⠠⠠

Other Examples:

(be)gun ⠠⠠⠠⠠ (be)lief ⠠⠠⠠⠠⠠⠠ (be)(ing) ⠠⠠

But:

unbelief ⠠⠠⠠⠠⠠⠠⠠⠠ b(ed) ⠠⠠ bett(er) ⠠⠠⠠⠠⠠⠠

But :

(dis)tru(st) ⠠⠠⠠⠠⠠⠠ (dis)fav(ou)r ⠠⠠⠠⠠⠠⠠⠠ (dis)turb ⠠⠠⠠⠠⠠⠠

But :

di(sh)es ⠠⠠⠠⠠⠠⠠ undismay(ed) ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

Drill 10

He did look rather bewildered, I confess. Disposing of this problem will require the whole effort of all of us. A handy, considerate child will help if dishes need washing. The new chairman of the sub-committee lost complete self-control because the members became disorderly. Betty behaved unbecomingly at school for a child of her age. Jack Ford is my choice for the job – come what may. Before we go, tell the milkman – make sure you are very clear – that we are not coming home for two weeks. I believe that this chair is very uncomfortable. Fiona saw her ring beside the clock on her bedside table. Shall I look beneath the cushion? The pupils became unruly; complete disorder prevailed. Behave well!

Practice 10

behold believe besiege behindhand beset beguiled

I disagree utterly, because I do not consider that he
disobeyed orders or that the commanding officer became
dissatisfied and disgusted with the behaviour of the
company at the terrible conflicts between our forces
and the considerable army that bestrides and controls all
the conquered territory. I confirm what I told
you before, that I am not guilty of conspiracy, or
of betraying my comrades; beware of condemning my
conduct or belittling my efforts, or of
misconstruing my motives and charging me with
dishonour.

LESSON 11

2. Lower Groupsigns in the Middle of a Word

(ea) (bb) (cc) (ff) (gg)
⠠ ⠠ ⠠ ⠠ ⠠

(ea) dot 2 (middle **a**)
(bb) dots 2 3 (lower **b**)
(cc) dots 2 5 (middle **c**)
(ff) dots 2 3 5 (lower **f**)
(gg) dots 2 3 5 6 (lower **g**)

These signs may only be used in the *middle* of a word, i.e. when preceded and followed by a letter or contraction written in the same line of braille. They may not be used before a hyphen in a word divided between two braille lines, before the hyphen in a hyphenated compound word, or before an apostrophe.

Examples:

l(ea)d ⠠⠠⠠

But: lea ⠠⠠⠠ eat ⠠⠠⠠ tea-cup ⠠⠠⠠⠠⠠⠠

ra(bb)it ⠠⠠⠠⠠

But: rab-bit ⠠⠠⠠⠠⠠⠠

a(cc)ept ⠠⠠⠠⠠

But: ac-cept ⠠⠠⠠⠠⠠⠠

cli(ff)s ⠠⠠⠠⠠

But: cliff ⠠⠠⠠⠠⠠ riff-raff ⠠⠠⠠⠠⠠⠠⠠

skiff's ⠠⠠⠠⠠⠠⠠

ra(gg)ed ⠠⠠⠠⠠

But: rag-g(ed) ⠠⠠⠠⠠⠠⠠

See Appendix F4: Braille Reference Section for advice on the division of words at the end of a line.

Choice of Contractions

An upper groupsign should always be used in preference to a lower groupsign. In words containing the letters "ear", the groupsign (ar) is always to be used in preference to (ea). One exception to this rule occurs when the (ar) groupsign in compound words would cause confusion.

e.g. t(ea)room ⠠⠠⠠⠠⠠⠠

Examples:

ef(for)t ⠠⠠⠠⠠ (of)f(er) ⠠⠠⠠ fe(ar) ⠠⠠⠠
le(ar)n ⠠⠠⠠⠠ be(ar)d ⠠⠠⠠⠠ e(ar) ⠠⠠⠠
e(ar)(th) ⠠⠠⠠ e(ar)ly ⠠⠠⠠⠠

Other Examples:

c(ea)se ⠠⠠⠠⠠ e(ar)n ⠠⠠⠠⠠ ea(st) ⠠⠠⠠⠠
b(ea)(st) ⠠⠠⠠⠠ he(ar)ts ⠠⠠⠠⠠⠠⠠ ease ⠠⠠⠠⠠⠠
ro(bb)(er) ⠠⠠⠠⠠⠠ ba(bb)l(ed) ⠠⠠⠠⠠⠠⠠

You may consider it odd, but I will not eat
cabbage. The sufferers from the disaster did not give

aristocrat she did not mingle with the common rabble,
but they wearied of being treated like riffraff. The
leader of the plot, being accused, cried "I am not
guilty!"; all the same, the judges
condemned that man. They served meatloaf, fried
eggplant, carrots and peas, crusty bread,
peaches and cream and cake topped with fluffy
marshmallow frosting. The story (which we will soon
complete) is filled with horror. "Do you
consider that old peddler odd?" It is not so
easy for me! He feared the man with the gun; but with
effort he disarmed the brute. He can afford this
property because he is a man of means – lucky
man!

READ Appendix A: Reading Practice 5

LESSON 13 Lower Wordsigns

Some of the lower signs are also used as wordsigns to represent whole words. They can be grouped under two headings:

1. Those that must be spaced from all other signs.
2. Those that must be spaced from all other words but may in some cases be in contact with punctuation signs.

LESSON 13 1. Lower Wordsigns That Must be Spaced From All Other Signs

(be)	(were)	(his)	(was)
⋮	⋮	⋮	⋮

(be)	dots 2 3	(lower b , the same as the groupsign (be))
(were)	dots 2 3 5 6	(lower g)
(his)	dots 2 3 6	(lower h)
(was)	dots 3 5 6	(lower j)

These four words, "be", "were", "his" and "was" are expressed by the above wordsigns, lower **b**, lower **g**, lower **h**, lower **j**, only when they are standing alone. Therefore, if the words adjoin lower punctuation in the print copy, they must be spelt out (for otherwise they would be regarded as punctuation themselves; e.g. a quote, etc.); and similarly, is the case where a letter is added to them, as: wasn't, ⋮⋮⋮⋮⋮⋮ w(er)(en)'t ⋮⋮⋮⋮⋮⋮*

* Compare also the simple upper wordsign for "have" ⋮ (see Lesson 4), which cannot be used in the word "haven't" ⋮⋮⋮⋮⋮⋮

Shortforms (all those beginning with "a", plus "said")

NOTE: For the complete list and rules for use of shortforms refer to Appendix F5.

1. Shortforms may be used within longer ordinary words (that is, words that have meaning other than use as proper names), provided

- a) there is no interference in spelling and
- b) an original meaning of the basic shortform word is retained.

Example: (after)glow ⠠⠃⠞⠞⠞⠞

But: raft(er) ⠠⠞⠞⠞⠞

2. A short form may not be used if the result could be mistaken for another word.

Example: ab(ou)ts ⠠⠃⠞⠞⠞⠞ ("about" is not used as "abs" is a word now in general usage)

Drill 13

After it lost the way, the plane strayed beyond the Soviet border and was shot down behind the Iron Curtain. His home town is according the general an almost royal welcome because of his heroic stand against overwhelming odds. We don't have enough food in the new house for the entire weekend. When my in-laws invaded our domain I was in a state of frenzy. If you insist that I be frank, I will be. How few they were, yet how well they defended the homeland! "Enough's enough!" cried the infuriated parent. The headmaster wasn't in, but his secretary greeted us warmly. Dickens and Thackeray were important British novelists of the nineteenth century. He movingly recited Tennyson's "In Memoriam" in floods of tears. Maybe he'll change his mind!

Practice 13

"I can't imagine what you were doing," he said after coming in. "Why," I replied, "I was about my own affairs again, and that is enough!" I was almost tired of his interfering ways: he was always asking indiscreet things of that kind, although he already knew enough about me as it was. We were all, in a group on the platform, waiting for the in-coming train; before it came in – it was very late – we saw my brother-in-law with his – what did he call it? – his "mascot". Then the train came in: it was almost twenty minutes behind schedule. "Enough standing about, for me at least," I said. "Quite enough for us also!" my companions agreed. "But be nimble," I said, "the train will be starting off again in a minute and we shall have been waiting for it in vain." We all got in although it was about full already. My brother-in-law, who joined us and jumped in after us with his pet in his arms, was almost too late; we were off at last.

- a) there is no interference in spelling and
- b) an original meaning of the basic shortform word is retained.

Example: un(friend)ly ⠠⠠⠠⠠⠠⠠

2. Do not use the shortform for "friend" in "befriended" or "befriending" as "befred" and "befring" could cause confusion.

3. The shortform for friend may not be used before a vowel or "y".

Example: fri(en)dy ⠠⠠⠠⠠⠠⠠

4. Do not use the shortform for "should" in (sh)(ou)ld(er) ⠠⠠⠠⠠⠠ as the original meaning of the basic shortform is not retained.

Drill 14

They are behindhand with the rent, and accordingly have asked to move. It is difficult today to imagine the fears of Columbus' sailors as they sailed across the ocean. Do not delude yourself about just how serious this could be if you do not make him your friend by tomorrow at the very latest. "Will you be able to drop by tonight, Lucy?", she asked her friend. He went to London by way of Bristol. His book, in my opinion, is very poorly written – to be perfectly frank. When will you permit me to enter your office? When he went into the room he was taken back by surprise. By and by we arrived at a small inn and went in to inquire whether any rooms were available. Bernard kept his tools in a lean-to near the greenhouse. Shall we go to "The Bell" tonight?

Practice 14

"If I were in your place," I said to my friend, "I should try to go by an earlier train tomorrow." I stood by him in the hall to help him into his coat and I offered to carry his luggage into the bus for him. "I hope to get back tonight early enough to see to all the things that we have to arrange – anyhow by tomorrow night," he said, as he got on the bus. We were to go to Edinburgh to attend an important meeting and I was planning to go by car to a number of places we wanted to see on the way. I did not like to go by myself: it was a shame not to use the car to the full. After dinner we were ready to discuss plans – which of the cities on the route to the North to pass by and which byways we would go so as to endeavour to combine duty with pleasure to our utmost, from our trip. "That's plain enough," I said; "enough to begin with at any rate. And now to bed, as you should try to catch the earliest train tomorrow, and not have to wait about so."

LESSONS 15-23 Composite Signs

In previous lessons, we have been considering simple signs which occupy one cell. Composite signs are those which occupy two or more consecutive cells. They will be divided into three classes.

- I. Initial Wordsigns.
- II. Final Groupsigns.
- III. Composite Punctuation Signs.

Both initial wordsigns and final groupsigns consist of a letter (or in one or two cases a simple upper groupsign) immediately preceded by one, two, or three dots taken from the right side of the first of the two cells – i.e. from dots 4 5 6; in the case of initial wordsigns, as the term implies, the letter is the **first** letter of a word; in the case of final groupsigns, the letter is the **last** letter of a contracted syllable in a word.

Examples:

Dot 5 and f	father	⋮ ⋮	(Initial Wordsign)
Dots 4 6 and n	-sion	⋮ ⋮	(Final Groupsign)

LESSONS 15-19 Initial Wordsigns

Initial wordsigns are used to express the whole word shown.

Examples:

Dot 5 and f	father	⋮ ⋮
Dot 5 and l	lord	⋮ ⋮

But they may also be used as groupsigns to express part of a word:

Examples:

(father)ly	⋮ ⋮ ⋮ ⋮	(father)s	⋮ ⋮ ⋮
(lord)ly	⋮ ⋮ ⋮ ⋮	(lord)(sh)ip	⋮ ⋮ ⋮ ⋮ ⋮

LESSONS 15-17

Initial Wordsigns with Dot 5

By far the largest number of these initial signs are formed with dot 5. There are twenty-two of them, and they will be taken alphabetically in the next three lessons.

Drill 15

I can never conceive how my sister-in-law manages the cleaning and the cooking and the shopping and everything for the children – day in, day out – too much altogether to my mind! For however good they may be in a general way, children are ever a great charge on the father and mother – greater, moreover, on the mother. “Well I don't know,” she declared yesterday, when I demanded to know how she could fit it all into the seven days; “every day I have to do certain things, whatever else may have to go by the board; here's a list if you'd like to know: Monday is washing-day – as everybody knows – by good luck, Father likes to take the children to school on that day – Tuesdays and Wednesdays I go into the town to do shopping – would you believe people could stand in queues, never knowing whether they will ever get anything much after all? Such a great waste of good effort! Still, it's either that or nothing!” Here she broke off suddenly with: “Why here they are and I'm not ready with tea!”

Practice 15

Beverly comforted her small, serious brother by saying, "Mother promised that she and father will take us fishing the day after tomorrow". He has declared himself in favour of resuming talks between the unions and the company. You know that you are not allowed to remain here forever. Do not deceive them into thinking we will find it. The landlord acknowledged that the tenants needed a few more days to find another house. "They have reached the top of Everest!" he declared with much enthusiasm. He continued to adhere to his beliefs even though he was condemned as a heretic. She was unable to smother a yawn as he continued to recite the boring details of his journey. "You have such good children!", her father-in-law declared. According to the plans made yesterday, the union is declaring a strike tomorrow, either in the morning or the afternoon; however, if we conceive an alternative plan, we may be able to prevent this from happening.

Into each life a little rain must fall. I was unable to answer your letter immediately. We were rather surprised to learn that some of our boys took part in the riots; they were named as instigators and taken for questioning. We hope that the party will be a big surprise for Grandfather. He was kidnapped but ransomed by his father, who was forced to pay a good deal of money. At a peace-time house-party at Lord Broughton's there were quite a considerable number of young people; some of the younger ones not knowing what to do with themselves all day and eager to try something new while they were all together there, suggested they ought to get up a play. And this plan was quickly put into effect. By good luck one of the party was discovered to be some sort of a playwright. Before the day was out the play was chosen and most of the characters in it were allotted. Everyone was set to work to get his part by heart immediately; someone was sent to help the youngest of the party to learn his part: he was a promising youngster with plenty of character who was thought eminently suitable to play the part of the young hero. The next thing to settle was where the play ought to be staged. Someone immediately perceived that there was a large room with a door behind leading into a little lobby, through which the actors could pass in and out at will. The great day was fixed and the young people went to work with right good will.

Practice 17

They met on a blind date and afterwards struck up a very good friendship. Toiling, rejoicing, sorrowing, onward through life he goes. He took on himself the unpaid debts of his stepchildren. He perceived that this project would entail the expenditure of funds above and beyond his means. Young as he is, perhaps he will be able to command enough strength of character, knowledge and will, to shoulder his new responsibilities at work. The characteristics of the adult are inherent in the chromosomes of the embryo. The untimely death of the doughty master quickly plunged the ship into an atmosphere of gloom. Everyone ought to take some time each day for reading. He thought that since he owned plenty of money he would be treated like a king wherever he went. Here and there the sun peeped through the clouds. They remained at the gates to the prison where they fought all through the night.

Drill 18

The young people, intent upon the task of learning the words which fell under the parts assigned to them, worked hard during the time left to them, before the great day fixed by the playwright who was also the producer. He insisted upon the immediate need for everyone to be word-perfect and to know his or her part in the play before they could even begin to rehearse. "This is still more necessary," he said, "for those, whose parts represent the chief characters in the play; these should study the characters they are called upon to act, try to understand them and not only get the words by heart but spend as much time upon them as they can." And so hard did these enthusiastic young people work throughout those few days that remained, that even those high standards set by the playwright seemed within reach. In the meantime the older ones of the party set to work upon the necessary accessories to the staging considered essential by the producer. Several rehearsals a day were insisted upon by those taking part.

Practice 18

Those whose houses are made of glass ought not to throw stones. Several fairy tales start with these words: "Once upon a time". Those of us whose lives are spent in the Western hemisphere know scarcely anything of life in the Orient. She bought a letter-opener in the shape of a miniature sword. Whereupon the young chemists began rejoicing except for the one woebegone boy who quickly perceived that he was the single failure.

The party of young people had many exciting times over their recitals. Some days nothing went right. "Put more spirit into those words!" one of them would be told. "Why in the world you cannot speak out!" or "there's a world of thought behind those lines of yours and you ought to enter into their spirit, so that those who hear them cannot fail to understand these underlying ideas." The youngster, whose part was that of the young hero, had worked very hard to get his words quite right and say them in a spirited manner: many and many a time he had been heard declaiming them to himself and anyone else who had enough time to listen to him. Here and there, where particular lines had to be said in some more characteristic tone of voice, those who had to speak them had to spend more time upon perfecting themselves. At last the great day arrived, when they would have to face all those who had come to look on – all the world and his wife were there, and their hearts sank. Their spirits rallied however, and they "brought down the house".

Practice 19

In these days of supersonic speed one can travel to any part of the world in no time at all. To those who have character and a spirit of adventure the Navy is very appealing. You cannot go on forever spending more money than you earn. I don't know whether or not I will go to Germany, as I don't understand a word of the language. "How many guests will there be at their party?" asked the spirited young man. Mrs Hadley was impressed with the beauty of the Parthenon. Some people believe in Spiritualism; many others cannot altogether accept these ideas. Upon hearing that her sister had scarlet fever, she became extremely dispirited. Those people whose spiritual lives mean everything to them do not lead worldly lives. They had the party here in the garden, with the babbling stream and the cool shade of the trees making it a very pleasant setting.

LESSONS 20-22 Final Groupsigns

Final groupsigns are used to represent certain syllables in words. Final groupsigns are so called because the *last* letter of the contracted syllable(s) is used, preceded by dots 4 6 or dots 5 6.

They may only be used as a groupsign, i.e. to represent *part* of a word, never as a wordsign to represent a whole word.

Example:

c(ar)e(less)(ness) ⠠⠠⠠⠠⠠⠠⠠⠠

(The) less (you) (know), (the) bett(er).
⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

They may not be used after the hyphen in a hyphenated word; as, o(the)r-ness ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠ (not a frequent case). They may not be used after an apostrophe, e.g.

grey'(ou)nd ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

They need not be at the end of a word, but they may not be used at the very beginning of it. See Appendix F4: Braille Reference Section for advice on dividing a long word at the end of a line.

There are twelve final groupsigns: they will be divided into three groups.

Fortunately he had the presence of mind to call an ambulance when he realised she was completely senseless. There is a chance that her chosen profession will be a blessing to her. When they had balanced their finances, they perceived that it was useless to retain their ancestral possessions if their bills were to be paid and they were to remain solvent. She learned to dance in only a few lessons. Patience and confidence are necessary for those who wish to become teachers. He studied the question with a thoroughness that defies description. She has applied for the position of governess advertised in the Sunday edition of "The Times". The twelve prisoners were sentenced to hard labour for eight years. Those days were filled with happiness for both of them. Our flight was cancelled because of bad weather and deteriorating conditions.

From the top of the mountain the view of the country for miles around is just an endless stretch of indescribable beauty. There are countless instances during the year when the rainfall is far less than the amount needed. The advertisement brought more business to the town, and the existence of a strong, important company came to public attention. She cancelled her appointment and mounted the stairs in silence. "The Snake Pit" depicts the horrible, shocking conditions in some of our mental institutions, north and south. "I can cite countless instances in which capital punishment has resulted in the execution of the wrong man," declared the defence lawyer.

The education authority aimed at equality of opportunity for all. She handled the sails both gracefully and skilfully – a really wonderful demonstration of splendid dexterity, especially in one so young.

With the appearance of the soloist the audience waited in silence for his first beautiful song. The existence of a white man among the native population was given full publicity. There is an unusually cordial relationship among the workers in the department. The youngest child automatically assumed responsibility for the care of the motherless lamb. The delegation was thankful for the opportunity to hear the comments of a professionally trained lawyer. Finally he recognized the mournful sound in the distance and gasped: "O Lord! the blood'ounds are on my trail!" Britain was a faithful ally of the United States during two world wars. He parried the blow with the skilful agility of an experienced fencer. He discharged his marital obligations more or less faithfully. Usually the Baroness served a fruity beverage.

New Arrangement of Drills and Practices

Centred Headings

The first line of the first page should carry a centred heading followed by a blank line. To do this, first count the number of cells that the heading will occupy. Subtract that from 40 (the number of cells per line). Divide your answer in half and this will indicate how many blank cells should precede the heading. When the heading has an uneven number of cells, move the heading off centre by one cell to the left.

Remember to count contractions, spaces and indicators such as capitals.

Running Head

1. The running head is written on the first line of every sheet, centred, except sheet 1 where the full centred heading will appear.
2. The running head should not occupy more than one braille line. Where necessary, it should be shortened so that at least 3 blank cells are left at the beginning of the line, and between the end of the running head and the print page number.
3. No blank line should be left between a running head and the continuation of text.

Page numbering

Print page numbers (if required) are brailled at the end of the first line on each page i.e. the line with the title or running head, with no fewer than 3 blank cells left between the page number and the text. If the first page starts at print page 2, and is continued on one or more braille pages, the subsequent pages will be a2, b2, c2 and so on.

Braille page numbers are brailled at the end of the last line on each page, i.e. on line 25. E.g. if the number is 5, the numeric mode indicator is brailled in cell 39 and 5 in cell 40. Three blank cells must also be left between the last word of text and the page number.

NOTE: For both the print and braille page numbers, no fewer than three blank cells should be left between the text and the page number.

Paragraphs

The first line of a paragraph begins in cell 3, even though, as is very common in print, the first line of a paragraph is not indented. The remainder of the text will continue in cell 1, until you begin a new paragraph in cell 3, on a new braille line, with no blank lines left between paragraphs.

In braille, the quoted passage will be treated as a normal paragraph and set apart by a blank line before and after it, with whatever punctuation appears in the print copy.

Note: If a quoted or bracketed passage extends over more than one paragraph, the quotation marks or brackets, of whatever kind, must be reopened before the first word of every paragraph in the passage, irrespective of whether this is done in the print copy. However, the quotation marks or brackets must only be closed after the last word of the passage.

Word Division

Word division should be avoided if brailing on a computer unless you will leave more than 10 cells blank, for if you need to reformat, you will have problems with hyphens that were at the end of a line now being in the middle of a line. If using a Perkins, you will not meet this problem, but it is still a good idea to divide only if you are completely confident that you are making a good division, for a bad and misleading division is very off-putting to a reader. However, for the occasions when you will need to divide, consult a dictionary. See Appendix F4: Braille Reference Section for advice on dividing a long word at the end of a line.

"I don't really understand," he said, "how they came to hit upon 'The Pines.' It's an out-of-the-way sort of place that one would think a gentleman couldn't rightly take a fancy to."

"The Pines' suited this party right enough," rejoined the little man. "All that he was after was a house close to the water. He wasn't particular about anything else, so long as he had that."

"Well," replied the landlord in a tone of some superiority, "I suppose, being a 'foreigner', he can't be used to much comfort, and there was enough for him and his niece to ...". He stopped, to my intense annoyance, to serve a customer who had just come in. Hoping, however, for still more information about the young lady, I continued to listen to the conversation at the other end of the bar, while pretending to glance at a paper in front of me – a weekly rag – which seemed to consist principally of advertisements.

"That 'foreigner'," the landlord continued, "will find 'The Pines' a little damp though, I'm thinking."

"That's his look-out," replied the other. "Anyhow, he's paid us six months' rent in advance...."

Cat was quite glad when lessons started again – he was sick of changing places with Janet, and Julia's handkerchief must have been worn to rags with the number of knots tied in it.

After lessons, he and Janet collected the two magic books and took them up to Cat's room. Janet looked round it with admiration.

"I like this room much better than mine, it's cheerful. Mine makes me feel like Sleeping Beauty and Cinderella, and they were both such sickeningly sweet girls ... Now let's get down to work. What's a really simple spell?"

They knelt on the floor, leafing through a book each. "I wish I could find how to turn buttons into sovereigns," said Cat. "Don't talk about it," said Janet. "I'm at my wits' end. How about this? 'Simple flotation exercise. Take a small mirror and lay it so that your face is visible in it. Keeping face visible, move around widdershins three times, twice silently willing, the third time saying: "Rise little mirror, rise in air, rise to my head and then stay there." Mirror should then rise' – I think you ought to be able to manage that, Cat."

"I'll have a go," Cat said dubiously.

Braille Indicators

Braille indicators have no direct print equivalents, and are used to show that the following Braille signs are to be interpreted in special ways. The following lessons introduce the most commonly used of these Indicators:

Numbers (Numeric mode indicator) Lesson 24
Single letters (Grade 1 indicator) Lesson 25
Capital letters (Capital indicator) Lesson 25
Italic, bold, underline (Typeform indicators) Lesson 26

Other special signs:

Accented letters (Accent) Lesson 27

Order of Braille Indicators and Other Signs

When two or more mode indicators, accents or punctuation signs occur together before a word, they are placed in the following order:

The capital indicator precedes the accent sign.

The numeric indicator precedes the decimal signs.

The apostrophe precedes the numeric indicator, capital indicator and/or accent signs.

The grade 1 indicator precedes the apostrophe, capital indicator and accent signs.

The italic indicator precedes the numeric indicator, grade 1 indicator, apostrophe, capital indicator and accent signs.

The capitalised/italic/bold/underline passage indicator is placed immediately before the first capitalized letter i.e. after quotation mark, open parenthesis, dash, hyphen and oblique stroke.

The capitalised/italic/bold/underline passage terminator is generally placed at the end of the passage, after punctuations such as fullstop, question mark, exclamation mark, comma, colon and semicolon. However, the passage terminator should be placed before punctuations such as quotation mark, close parenthesis, dash, hyphen and oblique stroke.

The order of the preceding signs is shown in the following list:

1. typeform indicator
2. grade 1 mode indicators
3. apostrophe
4. numeric indicator
5. capital indicator or decimal sign
6. accent signs

LESSON 24

The Numeric Mode Indicator

Dots 3 and 4 5 6. ⠠

Arabic figures (1-9 and 0) are represented in braille by the letters a-i and j respectively, when they are immediately preceded by the numeric mode indicator.

Cardinal Numbers

1 ⠠⠠ 10 ⠠⠠⠠ 206 ⠠⠠⠠⠠

Dot 2 is used to represent the print comma dividing off the thousands.

4,500,000 ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

If a space or half space is used in the print for dividing off thousands, dot 5 (the numeric space) is used to represent the space.

4 500 000 ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

However for **phone numbers** it is also correct to leave a space in braille if there is a space but no hyphen in the print, in which case the numeric indicator will be repeated.

355 6937 ⠠⠠⠠⠠⠠ ⠠⠠⠠⠠⠠

Ordinal Numbers

The proper ending is written unspaced from the cardinal number; contractions are not used.

1st or 1st ⠠⠠⠠⠠⠠ 2nd or 2nd ⠠⠠⠠⠠⠠
3rd or 3rd ⠠⠠⠠⠠⠠ 4th or 4th ⠠⠠⠠⠠⠠

Fractions

A simple numeric fraction line symbol is used only for a simple numeric fraction, that is one whose numerator and denominator both contain only digits, decimal points, commas, or separator spaces – in other words, symbols (other than the fraction line itself) that continue a single numeric item.

The numeric fraction line would be read as a line between vertically (or near-vertically) arranged numbers only.

$\frac{1}{5}$ ⠠⠠⠠⠠⠠⠠ $\frac{3}{5}$ ⠠⠠⠠⠠⠠⠠

Mixed numbers: the fraction, which retains its numeric mode indicator, immediately follows the whole number.

$2\frac{1}{2}$ ⠠⠠⠠⠠⠠⠠⠠ $3\frac{3}{4}$ ⠠⠠⠠⠠⠠⠠⠠⠠ $4\frac{5}{16}$ ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

When two mixed numbers are connected by the hyphen in the print copy, the numeric mode indicator is repeated after the hyphen.

$6\frac{1}{2}-7\frac{3}{4}$ ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

Decimals

The decimal point sign ⠨ dots 2 5 and 6, represents the decimal point in print, and is written immediately following the numeric mode indicator in expressing a decimal (unless there is a zero in the print, in which case it must be copied in braille) as:

.7 ⠨⠠⠠⠠ 0.7 ⠨⠠⠠⠠⠠

When a decimal fraction is joined to a whole number, the numeric mode indicator is written before the whole number.

7.95 ⠨⠠⠠⠠⠠⠠

Dates

Dates are transcribed as printed; as in print, no comma is needed to divide off the thousand in the date for the year.

Feb. 1, 1906 ⠨⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

When they are abbreviated, braille follows the print in the use of hyphens, oblique strokes, colons or full stops.

1.2.06 ⠨⠠⠠⠠⠠⠠⠠⠠

1-2-06 ⠨⠠⠠⠠⠠⠠⠠⠠⠠

Where an apostrophe is used in place of the figures denoting the century, the apostrophe sign is written before the numeric mode indicator.

'14 ⠨⠠⠠⠠⠠

In cases like "the 1920's" an apostrophe sign is inserted before the "s", only if it is shown in print.

e.g.

1920's ⠨⠠⠠⠠⠠⠠⠠⠠⠠⠠ 1920s ⠨⠠⠠⠠⠠⠠⠠⠠

LESSON 26

Typeform Indicators (italics, bold, underlined)

UEB provides a rich set of typeform indicators but their use is not mandatory. In transcribing material into braille, a balance must be struck between conveying information to the reader and cluttering up the braille.

1. When braille requires the use of two (or more) different typeform indicators for the same text, the order of indicators is not prescribed but it is preferred that the indicators and terminators be nested, that is, the first typeform opened is the last typeform closed.
2. A typeform word indicator establishes the designated typeform for the next symbols-sequence or the remainder of the current symbols-sequence. It is terminated by a space.
3. When a typeform passage extends over more than one paragraph, each paragraph is preceded by the typeform passage indicator and the typeform is terminated only at the point where the typeform changes.
4. The placement of typeform indicators and terminators in relation to opening and closing punctuation may not be obvious from the print. When it is clear in the print copy that punctuation is not included in a specific typeform, place the typeform indicator or terminator at the point where the typeform changes. When there is doubt, except for the hyphen and the dash, consider the punctuation as being included in the typeform.

2. The Bold Indicator

⠠⠠⠠⠠ Bold symbol indicator

(ii) Bold Word: Dots 4 5, 2 are written immediately before a bold word.

Example:

(iii) Bold Passage: When three or more consecutive words are printed in bold, the bold passage indicator, ⠠⠠⠠⠠ is written immediately before the first word and a bold terminator sign ⠠⠠⠠ placed after the last bold word before the next space, hyphen, dash or oblique stroke.

Example:

(ii) Underlined Word: Dots 4 5 6, 2 are used immediately before an underlined word.

Example:

(iii) Underlined Passage: When three or more consecutive words in the print copy are underlined, the underline passage indicator ⠠⠠⠠ is written immediately before the first word and an underline terminator sign ⠠⠠⠠ placed after the last underlined word, before the next space, hyphen, dash or oblique stroke.

Example:

But I shall not be just to Mr. Coffin if I omit to say he strikes for us his philosophy in the poem called "Man of Thunder". Giving the second stanza:

He came rightly by a dignity,
An air of peril, and an air that he
Was called to do things planned out long ago
Above the power of the wise to know.
There was a difference in him, a link
Between his hands and what he had to think.

This poem ends with the following three lines:

A power that could rise and trample through
The world with death and leave it still more fair
With fragile green things rising everywhere.

Again the philosophic note is struck in "House of Eyes"; the seventh stanza is as follows:

Things are never rounded off so well
That you cannot say, that finished the score.
You cannot sort out love from meat and drink;
This day's to-morrow and the day before.

The poem "Sunrise" is a fine reach:

The dewdrops quiver on the cobweb tents,
Birds leave their love and sit in meek suspense.
A disk of fire aeons old cuts through
The rocks of earth and rolls up into view.

Jubilee beyond the flight of words
Sweeps over all the comely, hungry birds.
The waters of the dew run into flame
For which the name of fire is no name.

Material on the art of navigation and information about weather and coastlines have often been versified; for example, fishermen sailing to the Tyne from the Lincolnshire coast recorded these verses in 1965:

When the sun sets in a bank
Westerly wind you shall not want.

Sun goes down clear as a bell,
Easterly winds sure as hell.

Mackerel's back and mare's tails
Makes lofty ship carry low sails.

Landsmen also had many traditional weather forecasts, such as:

When Bredon Hill puts on his hat
Ye men of the vale, beware of that;
When Cheviot you see put on his cap
Of rain ye'll have a wee bit drap.

Sayings about the weather and the seasons were only part of a corpus of verse connected with agriculture; it may have been one of the main methods of handing down farm experience. The fact that it was written in verse had something to do with the immediate acceptability and long life of Thomas Tusser's *A Hundred Good Pointes Of Husbandrie*. A sample of his unpretentious verse:

In harvest-time, harvest-folk, servants and all,
Should make, all together, good cheer in the hall;
And fill out the black bowl of blythe to their song,
And let them be merry all harvest-time long.

Once ended thy harvest, let none be beguiled,
Please such as did help thee, man, woman and child;

Thus doing, with alway such help as they can,
Thou winnest the praise of the labouring man.

There was scope for a social conscience in a handbook of
technology!

LESSON 28

Proper Names and Print Abbreviations

1. Proper Names

(i) **Contractions** should generally be used in proper names, using the usual rules.

Examples:

(Will) (More) ⠠⠠⠠⠠⠠⠠⠠⠠	Rob(er)t (Child) ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠
H(and)ley ⠠⠠⠠⠠⠠⠠⠠⠠	(Con)way ⠠⠠⠠⠠⠠⠠⠠⠠
(St)af(for)d ⠠⠠⠠⠠⠠⠠⠠⠠⠠	Mat(the)ws ⠠⠠⠠⠠⠠⠠⠠⠠⠠
Ox(for)d ⠠⠠⠠⠠⠠⠠⠠⠠	Mr (Young)husb(and) ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠
Mr (Young) ⠠⠠⠠⠠⠠⠠⠠⠠	Mr Halli(day) ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠
Mr (Day) ⠠⠠⠠⠠⠠⠠⠠⠠	

(ii) Any one of the shortforms blind, children, first, friend, good, great, letter, little, quick may be used at the **beginning** of a pure proper name, provided it is not followed by a vowel or "y"

Examples:

Mr (Good) ⠠⠠⠠⠠⠠⠠⠠⠠

Mrs (Little)john ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

But:

S(ch)neid(er) ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

Gdansk ⠠⠠⠠⠠⠠⠠⠠⠠⠠

Miss P(en)nyquick ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

(iii) **Personal initials** should follow print's spacing, and the use or non-use of abbreviation points. The grade 1 symbol indicator is required to distinguish letters that also have a contraction meaning whether or not there is an abbreviation point.

Examples:

Mr A. B. Smith ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

Mr A B Smith ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

ABS ⠠⠠⠠⠠⠠⠠⠠⠠

2. Print Abbreviations

(i) All print abbreviations used in the print copy must be transcribed as they stand.

(ii) If the abbreviation is printed with full stops, then a grade 1 indicator is generally not required.

Examples:

a.m. ⠠⠠⠠⠠⠠ V.C. ⠠⠠⠠⠠⠠⠠
B.Sc. ⠠⠠⠠⠠⠠⠠⠠ Ph.D. ⠠⠠⠠⠠⠠⠠⠠

(iii) If full stops are not present in the print:

(a) If the abbreviation consists of a single letter, a grade 1 indicator is required where the letter also has a contraction meaning.

Examples: b (born) ⠠⠠⠠

(b) If the abbreviation consists of several letters from one word, no grade 1 indicator is required unless the abbreviation could be read as a shortform.

Examples:

Rd (Road) ⠠⠠⠠ Mr (Mister) ⠠⠠⠠
MA ⠠⠠⠠⠠ AAA ⠠⠠⠠⠠⠠

(iv) Where an abbreviation consists of two or more letters of one word contractions may be used provided the usual rules for contractions are observed, and they cannot be mistaken for shortforms or wordsigns.

Examples:

m(ed). ⠠⠠⠠ (con)td. ⠠⠠⠠⠠⠠ (ed)it. ⠠⠠⠠⠠⠠
(con)j. ⠠⠠⠠⠠
St. John's St. ⠠⠠⠠⠠⠠ ⠠⠠⠠⠠⠠⠠⠠⠠ ⠠⠠⠠⠠⠠

William Wordsworth was born at Cockermouth on 7th April 1770: at eight he was sent to school and in 1787-91 he was at St. John's, Cambridge. In 1795, Calvert, a young friend, left him 900 pounds, and Wordsworth resolved to devote himself to poetry as his life-work. Among his friends were Walter Scott, S. T. Coleridge, Charles Lamb, Robert Southey, S. Rogers and Lord Lonsdale; and in 1845 he met Tennyson, whom he named "the first of our living poets". In 1843, after Southey's death, Wordsworth became Poet-Laureate. He died at Rydal Mount (his home since 1813), April 23, 1850, and was buried at Grasmere.

9 to 10 kg ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

6 m 25 cm ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

7. Contractions may generally be used in units.

Examples:

8 ins (8 inches) ⠠⠠⠠⠠⠠⠠⠠⠠

5 mins (5 minutes) ⠠⠠⠠⠠⠠⠠⠠⠠

8. The degree sign ° is brailled as ⠠⠠⠠, dots 4 5 and 2 4 5.

Examples:

45°. (45 degrees.) ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

21°C (21 degrees Celsius) ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

9. When a unit is not attached to a number, the same abbreviation should generally be used.

Example:

Answer in °F ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

Reference Abbreviations and Symbols

The following applies to abbreviations and symbols appearing before the number used in giving references; for example, to pages, chapters, volumes, etc.

Abbreviations should generally be transcribed as in print, following the usual rules for abbreviations given in Lesson 28. They should be spaced or unspaced from the number as in print. Examples:

Vol.5 ⠠⠠⠠⠠⠠⠠⠠⠠

Vol. 5 ⠠⠠⠠⠠⠠⠠ ⠠⠠

Vol 5 ⠠⠠⠠⠠⠠ ⠠⠠

ch.16 ⠠⠠⠠⠠⠠⠠

par 15 ⠠⠠⠠ ⠠⠠⠠⠠

ss.6-8 ⠠⠠⠠⠠⠠⠠⠠⠠⠠

p.6 ⠠⠠⠠⠠

p6 ⠠⠠⠠

Where print uses the special symbols for section or paragraph, the following braille signs should be used, unspaced from the number:

§ ⠠⠠⠠

¶ ⠠⠠⠠

Examples:

§12 ⠠⠠⠠⠠⠠⠠

¶4 ⠠⠠⠠⠠

Note that where print uses an ordinary abbreviation rather than one of these symbols, braille should follow print.

Drill 29

Temperatures soared to 34°C, or around 100°F, and with only 4 cm rainfall in 3 months the drought continued all summer. This caused the water levels in reservoirs to drop 20 ft or more. As conditions worsened, hosepipe bans and other inhibitory measures were introduced. Any people ignoring these restrictions faced fines of £1000.

Inflation is at 11%, causing the cost of 250 g of sugar to increase by 25p. The average weekly shopping will now cost at least £9.50 more than one month ago.

If you look at P.5 of vol.3 you will see that §17 of chap. 8 is missing. In addition, the previous section is incorrectly referred to in L.23 of that page.

"10 sec later and I would have drowned", gasped the rescued man. The lifeboatmen noticed the package which the struggling man had refused to let go. What did it contain? 7 kg of gold, or perhaps 13 lb of cocaine? Was this man a smuggler? Would there be a \$500 reward for his capture? The mystery was solved when he started to unravel the package to reveal a ½ lb box of Dairy Milk chocolates. "Next time she's getting flowers," he chuckled.

Practice 29

Edmund Blackadder, a tall and slim 6 ft 5 ins, was followed at a safe distance of 4 yd by Baldrick, a short and squat 4 feet 7 inches. The former purchased a whole week's supply of pies from Mrs. Miggins' shop, totalling £3 5s 4d (or £3 and 26½p in new money). Baldrick spent all he had, which was only 2½d, on 4¾ lb of turnips.

Then Edmund walked 2 m to the wig-makers to pick up a new hair-do for his master, mad Prince George. It was an electric blue colour and stood on end, an effect achieved by letting 600 V run through it. The wig was wrapped in 1 m of brown paper, tied up with 25 cm of string.

On their return to the palace, a highwayman sped towards them at 20 mph. Screeching to a halt only 2 cm from Blackadder's nose, the baddy shouted "Your money or your life!". Upon their refusal to his demands, the robber threatened to drop them into water heated to 95°C. However, the wind suddenly changed direction, wafting Baldrick's distinctive odour towards the highwayman. This stunning effect, which also flattened all flora within a 12 m radius of the area, allowed our two heroes to escape.

[This is taken from ch.2 of my new book. Chapter 3, p23-36, is even better!]

Mr Waima built his marae where he was living in Wellington and he named the wharenuī "Tāne Whaiora" after a very ancient ancestor – Tāne, the god of the forest.

As the boys returned to their places, Mrs Waima whispered to Tamati, "Tino pai to haka, e Tama. Why were you so scared yesterday?"

Jean-Paul was looking forward to spending three years at the University of Bordeaux, which was his beloved home town. He was to study the language and literature of France and Italy, although he had *carte blanche* to study any other subject in addition to these.

One of his favourite novels was *Le Père Goriot* by Balzac, although he also enjoyed *Les Misérables* by Victor Hugo. On his reading list from the Italian lecturer, Sr. Maretta, were Fontamara by Ignazio Silone and *Cristo si è fermato a Eboli* by Carlo Levi.

On his arrival at the university there was a huge banner with the words "bienvenus – benvenuti – bienvenidos – willkommen – welcome" hanging on the façade of the renaissance-style building. He made his way through the endless corridors to the Italian department where he had arranged a *rendezvous* with his sister's English fiancé, Will. They were to go and have a drink in the café.

**Part A
Print to Braille Transcription**

Instructions

1. Candidates are to transcribe into braille three passages totalling approximately eight braille pages in length. Start each passage on a new braille page.
2. Print page numbers are to be shown in the braille transcription, as well as braille page numbers.
3. Candidates are not to divide words at the end of lines other than for hyphenated or compound words.

2 marks will be deducted for each occurrence of:

- Misused or omitted contractions
- Incorrect use of capitalisation
- Misuse of composition signs
- Text omitted or repeated
- Incorrect punctuation

1 mark deducted for each occurrence of:

- Incorrect formatting e.g. headings, paragraphs, pagination
- Noticeable erasures.

Part A Passage 1

MATILDA
Roald Dahl

The Reader of Books

It's a funny thing about mothers and fathers. Even when their own child is the most disgusting little blister you could ever imagine, they still think that he or she is wonderful.

Some parents go further. They become so blinded by adoration they manage to convince themselves their child has qualities of genius.

Well, there is nothing very wrong with all this. It's the way of the world. It is only when the parents begin telling *us* about the brilliance of their own revolting offspring, that we start shouting, "Bring us a basin! We're going to be sick!"

School teachers suffer a good deal from having to listen to this sort of twaddle from proud parents, but they usually get their own back when the time comes to write the end-of-term reports. If I were a teacher I would cook up some real scorchers for the children of doting parents. "Your son Maximilian", I would write, "is a total wash-out. I hope you have a family business you can push him into when he leaves school because he sure as heck won't get a job anywhere else." Or if I were feeling lyrical that day, I might write, "It is a curious truth that grasshoppers have their hearing-organs in the sides of the abdomen. Your daughter Vanessa, judging by what she's learnt this term, has no hearing-organs at all."

I might even delve deeper into natural history and say, "The periodical cicada spends six years as a grub underground, and no more than six *days* as a free creature of sunlight and air. Your son Wilfred has spent six years as a grub in this school and we are still waiting for him to emerge from the chrysalis." A particularly poisonous little girl might sting me into saying, "Fiona has the same glacial beauty as an iceberg, but unlike the iceberg she has absolutely nothing below the surface." I think I might enjoy writing end-of-term reports for the stinkers in my class. But enough of that. We have to get on.

Occasionally one comes across parents who take the opposite line, who show no interest at all in their children, and these of course are far worse than the doting ones. Mr and Mrs Wormwood were two such parents. They had a son called Michael and a daughter called Matilda, and the parents looked upon Matilda in particular as nothing more than a scab. A scab is something you have to put up with until the time comes when you can pick it off and flick it away. Mr and Mrs Wormwood looked forward enormously to the time when they could pick their little daughter off and flick her away, preferably into the next county or even further than that.

It is bad enough when parents treat *ordinary* children as though they were scabs and bunions, but it becomes somehow a lot worse when the child in question is *extra-ordinary*, and by that I mean sensitive and brilliant. Matilda was both of these things, but above all she was brilliant. Her mind was so nimble and she was so quick to learn that her ability should have been obvious even to the most half-witted of parents. But Mr and Mrs Wormwood were both so gormless and so wrapped up in their own silly little lives that they failed to notice anything unusual about their daughter. To tell the truth, I doubt they would have noticed had she crawled into the house with a broken leg.

Matilda's brother Michael was a perfectly normal boy, but the sister, as I said, was something to make your eyes pop. By the age of *one and a half* her speech was perfect and she knew as many words as most grown-ups. The parents, instead of applauding her, called her a noisy chatterbox and told her sharply that small girls should be seen and not heard.

By the time she was *three*, Matilda had taught herself to read by studying newspapers and magazines that lay around the house. At the age of *four*, she could read fast and well and she naturally began hankering after books. The only book in the whole of this enlightened household was something called *Easy Cooking* belonging to her mother, and when she had read this from cover to cover and had learnt all the recipes by heart, she decided she wanted something more interesting.

Part A Passage 2

LIZ'S EGGLESS CHOCOLATE VELVET CAKE

Dry Ingredients:

$2\frac{2}{3}$ cups plain flour

$1\frac{1}{3}$ cups castor sugar

6 tablespoons cocoa

2 teaspoons bicarb soda

2 teaspoons baking powder

small pinch of salt

Method

- Sift the above ingredients (except sugar) into a bowl.
- Add sugar and mix well.

Wet Ingredients:

$\frac{2}{3}$ cup oil

2 tablespoons white vinegar

1 teaspoon vanilla essence

2 cups cold water

Method

- Beat together all of the *wet ingredients* with a whisk in another bowl.
- Add to the *dry ingredients* and mix well.
- Pour into an 8 inch tin (greased and lined on the base with greaseproof paper).
- Bake for 1 hour and 10 minutes in a moderate oven. (180° or 160° gas)
- Allow cake to remain in tin when cooked.
- When completely cold, cut into 3 layers.
- Spread filling between the layers and over the entire cake.
- Decorate as desired with nuts, cream, fruit.

Filling:

200 g dark cooking chocolate

$\frac{3}{4}$ cup sour cream

Method

- Melt chocolate in a pan over boiling water.
- Remove from heat and quickly beat in the sour cream.
- Leave in fridge until it reaches a spreadable consistency.

Part A Passage 3

THE DAFFODILS William Wordsworth

I wandered lonely as a cloud
That floats on high o'er vales and hills,
When all at once I saw a crowd,
A host, of golden daffodils;
Beside the lake, beneath the trees,
Fluttering and dancing in the breeze.

Continuous as the stars that shine
And twinkle on the milky way,
They stretched in never-ending line
Along the margin of a bay:
Ten thousand saw I at a glance,
Tossing their heads in sprightly dance.

The waves beside them danced, but they
Out-did the sparkling waves in glee:
A poet could not but be gay,
In such a jocund company:
I gazed—and gazed—but little thought
What wealth the show to me had brought:

For oft, when on my couch I lie
In vacant or in pensive mood,
They flash upon that inward eye
Which is the bliss of solitude;
And then my heart with pleasure fills,
And dances with the daffodils.

**Part B
Braille to Print Transcription**

Instructions

1. Candidates are to transcribe from braille into print a passage of approximately 2 braille pages in length. The transcription is to be made on a separate sheet and under no circumstances is to be written above the braille on the examination sheet.
 2. In the event that a candidate does not have access to a computer and printer, or typewriter, the transcription may be handwritten. In such cases it is the candidate's responsibility to ensure that the handwriting is clearly legible.
- 2 marks will be deducted for each error.

**Part C
Proofreading**

Instructions

1. Candidates are to indicate on a separate sheet in braille any errors found (approximately 10 errors).
2. You must identify the braille error and braille correctly the mistake by first indicating the page number & line number. A gap of two braille spaces is to be left between the error and its corrected form.

i.e. Page#Line#. Braille mistake Braille correction

e.g. ⠠⠠⠠⠠⠠⠠ ⠠⠠⠠⠠⠠⠠ ⠠⠠⠠⠠

Take a new line for each error identified.

- 2 marks will be deducted for each error not identified
- 1 mark will be deducted for each incorrect braille form.

Life's return to KRAKATAU
By Graham Phillips

On 26 August 1883 the tiny Indonesian island of Krakatau was a typical tropical island. It was teeming with myriad forms of plant life, microbes and animals, but on August 27 this equatorial paradise was destroyed.

On that day all of the life of the island was extinguished. In fact much of the island itself disappeared.

The reason for the mass devastation was the eruption of Krakatau. The volcano's violent belches blew the island apart, sending a plume of volcanic debris 5 kilometres into the air.

As a result of the volcanic explosion, 40 000 people lost their lives, although they weren't killed by the volcanic outburst itself. Huge tsunamis, or tidal waves, were generated as the island collapsed and these washed onto the nearby islands of Java and Sumatra, wiping out entire towns.

The eruption reshaped Krakatau beyond recognition. So much molten rock was blown up into the air that a large chunk of the island sank into the sea. The southern tip of Krakatau, named Rakata, remained above sea level but it was covered in metres of volcanic fallout which was heated to hundreds of degrees Celsius. There were, of course, no signs of life.

Part B Braille to Print

The Cutting Edge

The earliest cutting implements date back to prehistoric times, when sharpened flints and pointed wooden sticks were used to cut and pierce pieces of food. The ancient Egyptians had cutting tools made of chipped flints, glued into slotted wooden handles. By the Bronze Age (about 3000 BC — 1000 BC), bronze cutting-tools were being made by most civilisations across the world, from Great Britain to China. But it was the ancient Romans (509 BC — 476 AD), with their sprawling Roman Empire, who helped spread the use and manufacture of steel-bladed knives in Europe.

However, only the wealthy used knives for eating. During the Middle Ages, European nobles took elegant food-knives with them when they travelled, because hosts and innkeepers didn't provide knives or forks for their guests.

Men always carried knives, and used them for many different purposes — including meals. Skilled craftsmen made fancy knives with silver, gold, ivory, ebony or even marble handles. Poorer people used plain knives with handles of bone or wood.

Women, however, didn't carry knives. Nor did they use them for eating — at least not in public. Instead, they were expected to share the gentleman's dish: the man cut up the food with his knife and then served the pieces to his partner.

Early knife-blades were like daggers, sharpened on both sides and pointed at the ends. They were used not only for cutting food but for lifting it to the mouth as well. In time, only one side of the knife was sharpened, leaving the upper edge safely blunt — particularly for those who used the flat of the knife as a spoon. Many people would now consider it impolite to use a knife to put food into their mouths but in the United States, as recently as 150 years ago, diners were given handy hints on whether it was polite to tip the blade this way or that when using their knife for such a purpose.

In some cultures, however, it is considered barbaric to have knives at the table at all.

Appendix F BRAILLE REFERENCE SECTION

1. Bridging and Preference

Contractions may **NOT** be used:

(1) to bridge the components of a compound word, e.g.

bighorn ⠠⠠⠠⠠⠠⠠⠠⠠ *not* bi(gh)orn

c(ar)thorse ⠠⠠⠠⠠⠠⠠⠠⠠⠠ *not* c(ar)(th)orse

Que(en)st(ow)n ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠ *not* Que(en)(st)(ow)n

(2) to bridge a prefix and the remainder of a word which would make the word hard to read, e.g.

readmit ⠠⠠⠠⠠⠠⠠⠠⠠ *not* r(ea)dmit (do not use "ea")

kilowatt ⠠⠠⠠⠠⠠⠠⠠⠠⠠ *not* kil(ow)att (do not use "ow")

a(er)ofoil ⠠⠠⠠⠠⠠⠠⠠⠠ *not* a(er)(of)oil (do not use "of")

In general, however, contractions are permissible, e.g.

r(ed)i(st)ribute ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

pr(ed)et(er)m(in)e ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

d(en)a(tion)alise ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠

d(er)ail ⠠⠠⠠⠠⠠⠠ pr(of)ile ⠠⠠⠠⠠⠠⠠

pr(of)es(sion) ⠠⠠⠠⠠⠠⠠⠠⠠⠠ mi(st)ake ⠠⠠⠠⠠⠠⠠

(3) if it would upset the usual pronunciation of syllables, as,

as(th)ma ⠠⠠⠠⠠⠠⠠ (do not use "st")

fruity ⠠⠠⠠⠠⠠⠠ (do not use "ity")

hypo(the)ses ⠠⠠⠠⠠⠠⠠⠠⠠⠠ (do not use "these")

Choice of Contractions

Where there is more than one possible choice in the use of groupsigns, make the selection based on the following principles, unless the choice is guided by other rules such as bridging:

(1) Give preference to the groupsign which causes a word to occupy fewer cells, e.g.

(th)(ence)	⠠⠠⠠⠠	<i>not</i>	(the)n(ce) or (th)(en)ce
(with)(er)	⠠⠠	<i>not</i>	wi(the)r
bas(tion)	⠠⠠⠠⠠⠠	<i>not</i>	ba(st)ion
d(ance)r	⠠⠠⠠⠠	<i>not</i>	danc(er)

(2) Use an upper groupsign in preference to a lower provided their use does not waste space, e.g.

ef(for)t	⠠⠠⠠⠠	<i>not</i>	e(ff)ort
(of)f(er)	⠠⠠⠠	<i>not</i>	o(ff)(er)
be(ar)	⠠⠠⠠	<i>not</i>	b(ea)r

(3) In words starting with "cong", contract (con) *not* (ong), e.g.

(con)gru(en)t ⠠⠠⠠⠠⠠⠠

(4) When the letters-sequence "ben" occurs at the beginning of a word, use the lower groupsign for "be" in preference to the lower groupsign for "en" if the "be" is a syllable, e.g.

(be)nign ⠠⠠⠠⠠⠠ *but:* b(en)z(en)e ⠠⠠⠠⠠⠠

(5) When the letters-sequence "bea" occurs at the beginning of a word, use the lower groupsign for "ea" unless the "be" is a syllable, e.g.

b(ea)(st)ly ⠠⠠⠠⠠⠠ *but:* (be)atitute ⠠⠠⠠⠠⠠⠠⠠

NOTE: These rules do not apply to initial wordsigns when used as parts of words, or to final groupsigns; the particular rules for each of these must be observed as set out in Lessons 15-22, p. 54-81.

2. Standing Alone Rule

A wordsign is defined as a contraction which represents a complete word.

A groupsign is a contraction which represents a group of letters within a word.

Note that some contractions can be both wordsigns and groupsigns.

Most wordsigns can only be used if they represent the exact word and touch no other letters. They may however touch certain punctuation. This is called "standing alone" and the formal definition is given below. Note that the forward slash is not included in the list of permitted punctuation, so a word touching a forward slash is not considered to be standing alone.

Definition

A letter or letters-sequence is considered to be standing alone if it is preceded and followed by a space, a hyphen or a dash. Only the following common punctuation and indicator symbols are allowed between the letter or letters-sequence and the space, hyphen or dash:

(1) between the letter or letters-sequence and the preceding space, hyphen or dash:

opening parenthesis, square bracket or curly bracket,
opening quotation mark of any kind,
nondirectional quotation mark or apostrophe,
opening typeform or capitalization indicator,
or any combination of these;

(2) between the letter or letters-sequence and the following space, hyphen or dash:

closing parenthesis, square bracket or curly bracket,
closing quotation mark of any kind,
nondirectional quotation mark or apostrophe,
closing typeform or capitalization indicator,
comma, semicolon, colon, full stop,
exclamation mark, question mark,
or any combination of these.

Example

Lesson 4 states that alphabetic wordsigns can only be used when they are standing alone. So the wordsign for "just" can be used in the following:

just ⠠ Just; ⠠⠠ "just?" ⠠⠠⠠ (just): ⠠⠠⠠⠠
just-like ⠠⠠⠠ just—like ⠠⠠⠠⠠

but not in:

unjust ⠠⠠⠠⠠⠠ just/like ⠠⠠⠠⠠⠠⠠⠠⠠⠠

Note that when the wordsign for "just" cannot be used, the "st" groupsign within it can still be used.

3. Contractions with hyphens, dashes and forward slashes

The contractions are listed below with a summary of how each set behaves in this regard.

Wordsigns

alphabetic wordsigns (lesson 4)

[but, can, do, every, from, go, have, just, knowledge, like, more, not, people, quite, rather, so, that, us, very, will, it, you, as]
Must stand alone so can touch the hyphen or dash but not the forward slash.

just-like ⠠⠠⠠ just—like ⠠⠠⠠⠠ just/like ⠠⠠⠠⠠⠠⠠⠠⠠⠠

simple wordsigns (lesson 7)

[child, out, shall, this, which, still]
Must stand alone so can touch the hyphen or dash but not the forward slash.

this-child ⠠⠠⠠ this—child ⠠⠠⠠⠠
this/child ⠠⠠⠠⠠⠠⠠⠠⠠⠠

4.2 Divide a word between syllables even if it means that a simple contraction or a group sign is not used. Ex.:

anteroom ⠠⠠⠠⠠⠠⠠ ⠠⠠⠠⠠
bandanna ⠠⠠⠠⠠⠠ ⠠⠠⠠⠠⠠⠠
Catherine ⠠⠠⠠⠠⠠⠠ ⠠⠠⠠⠠
"Freedom!" ⠠⠠⠠⠠⠠⠠⠠⠠⠠ ⠠⠠⠠⠠⠠⠠

nightingale ⠠⠠⠠⠠⠠⠠⠠ ⠠⠠⠠⠠⠠
profound.) ⠠⠠⠠⠠⠠ ⠠⠠⠠⠠⠠⠠⠠
wheedling ⠠⠠⠠⠠⠠ ⠠⠠⠠⠠

hyphenated words

4.3 When a hyphenated word is divided at the existing hyphen, retain the normal braille form of the word. However, if this would result in a sequence consisting only of lower signs, do not use the lower wordsign. Ex.:

about-face ⠠⠠⠠⠠⠠ ⠠⠠⠠⠠⠠
air-conditioned ⠠⠠⠠⠠⠠ ⠠⠠⠠⠠⠠⠠⠠
Aix-en-Provence ⠠⠠⠠⠠⠠⠠⠠⠠⠠ ⠠⠠⠠⠠⠠⠠⠠⠠

alphabetic wordsigns, simple wordsigns

- 4.4 Do not use the alphabetic wordsign or simple wordsign as part of a word divided between braille lines even when the word it represents appears to be standing alone. Ex.:

childlike ⠠⠒⠏⠞⠊⠗⠊⠗⠁⠇ ⠠⠒⠏⠞⠊⠗⠊⠗⠁⠇

ing

- 4.5 Do not use the simple groupsign for "ing" when these letters fall at the beginning of the braille line in a word divided between braille lines. Ex.:

meningitis ⠠⠍⠑⠏⠗⠊⠞⠊⠎ ⠠⠍⠑⠏⠗⠊⠞⠊⠎
 nightingale ⠠⠗⠊⠒⠊⠞⠊⠝⠗⠊⠎ ⠠⠗⠊⠒⠊⠞⠊⠝⠗⠊⠎
 showering.) ⠠⠎⠊⠎⠎⠊⠗⠊⠝⠗ ⠠⠎⠊⠎⠎⠊⠗⠊⠝⠗
 SmithInge ⠠⠎⠊⠎⠎⠊⠗⠊⠝⠗ ⠠⠎⠊⠎⠎⠊⠗⠊⠝⠗

lower sign rule

4.6 In a word divided between braille lines, use any number of lower group signs and lower punctuation signs following one another provided the sequence includes a sign with upper dots. If there is not a sign with upper dots in the sequence, do not use the final lower group sign. Ex.:

"Comin'?" ⠠⠎⠊⠎⠎⠊⠗⠊⠝⠗ ⠠⠎⠊⠎⠎⠊⠗⠊⠝⠗
 (Disentangle ⠠⠎⠊⠎⠎⠊⠗⠊⠝⠗ ⠠⠎⠊⠎⠎⠊⠗⠊⠝⠗

 linen... ⠠⠎⠊⠎⠎⠊⠗⠊⠝⠗ ⠠⠎⠊⠎⠎⠊⠗⠊⠝⠗
 shortenin' ⠠⠎⠊⠎⠎⠊⠗⠊⠝⠗ ⠠⠎⠊⠎⠎⠊⠗⠊⠝⠗

dash

4.7 Words joined by a dash may be divided at the end of a braille line either before or after the dash. Ex.:

always—except
 ⠠⠎⠊⠎⠎⠊⠗⠊⠝⠗ ⠠⠎⠊⠎⠎⠊⠗⠊⠝⠗ or: ⠠⠎⠊⠎⠎⠊⠗⠊⠝⠗ ⠠⠎⠊⠎⠎⠊⠗⠊⠝⠗

4.8 Do not use the lower wordsign for "be", "were", "his" or "was" before or after a dash, even when separated from the dash by the end of the braille line. Ex.:

not his—my name

⠠⠎⠊⠎⠎⠊⠗⠊⠝⠗ ⠠⠎⠊⠎⠎⠊⠗⠊⠝⠗ or: ⠠⠎⠊⠎⠎⠊⠗⠊⠝⠗ ⠠⠎⠊⠎⠎⠊⠗⠊⠝⠗

Numbers

4.14 Division of a number between lines should be avoided unless considerable space is saved. In such a situation, divide at the print comma and repeat the numeric mode indicator. Ex.:

4,500,000,000 ⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠⠠ ⠠⠠⠠⠠
